Subject : Introduction to the Drone NiVO Aerofly

Dear Sir/Madam,

Through this letter, we, PT Techno GIS Indonesia, a leading company in geospatial technology, extend our warm regards. We specialize in cost-effective, high-performance surveying equipment, cloud mapping software, and geospatial data mapping and analysis services in Indonesia. Our solutions cater to various fields requiring high-precision measurements, such as infrastructure projects, topographic mapping, land surveys, and other geospatial needs.

We are proud to introduce our flagship product, **Drone NiVO Aerofly**, a state-of-the-art device specifically designed to meet geospatial surveying demands with exceptional accuracy and efficiency.

The key features of **Drone NiVO Aerofly** include:

1. **Wide Coverage Capability:** With long-range and extended flight time, NiVO AeroFly is ideal for large-scale survey projects, including mining, forestry, and agriculture mapping.
2. **High-Precision Data:** Equipped with advanced GNSS and high-quality sensors to deliver detailed and accurate geospatial data for diverse applications.
3. **Aerodynamic Design:** The lightweight, fixed-wing structure ensures optimal flight stability, even in challenging weather conditions.
4. **Operational Efficiency:** Covers larger areas in shorter timeframes compared to multirotor drones, saving both time and operational costs.
5. **Ease of Use:** Features automatic launch and safe landing systems, making it user-friendly even for teams with limited experience.

We firmly believe that the **Drone NiVO Aerofly** can provide tangible benefits to your organization by enhancing the quality and efficiency of your land surveying operations.

For further information or to schedule a meeting, please contact us at **+62 274 885879 / +62 813-2552-3979 / info@technogis.co.id**. We highly value the opportunity to collaborate with you and explore potential partnerships. By leveraging our expertise and technology, we aim to contribute positively to the advancement of your organization's projects and initiatives.

Once again, we extend our sincere thanks for your attention to this introduction. We look forward to the possibility of working together and establishing a mutually beneficial relationship. Please do not hesitate to contact us should you have any questions or require additional details.

Yours sincerely,

Gen Azza S. Geo
